Course Objective

Material TECH 2021 aims to proclaim knowledge and share new ideas amongst the professionals, industrialists and students from areas of Metallurgy, Materials Science and Mechanical Engineering to share their research experiences and indulge in interactive discussions and technical sessions at the event. Comprehensive sessions will address recent advancements and new strategies for development of new materials and technologies for global requirements with an objective to install a dialogue between industries and academic organizations and knowledge transfer from research to industry.

Authors are solicited to contribute to the conference by submitting **Full length article or Abstract** for oral/poster presentation that illustrate research results, projects, experiment works and industrial experiences that describe significant advances in conference **scientific themes**.

Considering COVID, participants are given option to present their **talks/presentations and posters** related to their research work either in **online mode/recorded presentations and in-presentia**.
